RESIZE

The below table shows which powers it takes to achieve various sizes along with the modifier to the character’s Melee and Agility defenses, the damage multiplier the character gets to add to their Melee attacks, and the effect their size has on many other things. Apply a character’s size multiplier to their reach, the number of spaces they occupy, their speed and their throwing ranges.

<i>Power</i>	<i>Size</i>	<i>Height</i>	<i>Defense Modifier</i>	<i>Damage Multiplier</i>	<i>Size Multiplier</i>
Shrink 4	<i>Microscopic</i>	<i>¼ inch</i>	+5	-	0
Shrink 3	<i>Miniature</i>	<i>1 inch</i>	+4	-	0
Shrink 2	<i>Tiny</i>	<i>4 inches</i>	+3	-	0
Shrink 1	<i>little</i>	<i>1.5 feet</i>	+2	-	¼
Grow 1	<i>Huge</i>	<i>24 feet</i>	-2	+2	5

MACRO-DIMENSIONAL TRAVEL

FOCUS

*The character outgrows
the universe!*

Power Set: Resize

Prerequisites: Grow 4, Rank 4

Action: Standard

Duration: Instant

Effect: The character can grow enough to travel into the Macroverse, the Overspace or other dimensions of enlarged space. They can return to their normal size at will.

Note that this is something that most characters would rarely want to do, as it removes them entirely from their regular universe and places them in a dimension in which the rules of time and space work differently. An hour in the Macroverse, for example, is roughly equivalent to a month in a regular universe. A trip to the Overspace is too overwhelming for most minds to handle.

The character shrinks out of the universe!

Power Set: Resize

Prerequisites: Shrink 4, Rank 4

Action: Standard

Duration: Instant

Effect: The character can shrink enough to travel into subatomic realms. They can return to their normal size at will.

Note that this is something that most characters would rarely want to do, as it removes them entirely from their regular universe and places them in a dimension in which the rules of time and space work differently. The Under-space, for example, might make a fine place to hide, but there's little else of interest there.
